### 1.PULL AN IMAGE FROM DOCKER HUB AND RUN IT IN DOCKER PLAYGROUND

The screenshot displays the Docker Playground interface. On the left, a sidebar shows a timer at 03:49:01, a 'CLOSE SESSION' button, and a list of instances with one instance named 'node1' at IP 192.168.0.7. The main panel shows the instance details for 'cdqf5qe3\_cdqfadu3tccg00c8tuc0' with IP 192.168.0.7, 1.41% CPU usage, and 56.54MiB memory. Below this, there are 'DELETE' and 'EDITOR' buttons. The terminal window shows the following commands and output:

```
# is HIGHLY! discouraged. Any consequences of doing so are
# completely the user's responsibilities.
#
# The FWD team.
